DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,2,4,5,7,8,49 and 50 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Joseph. Joseph discloses a network 3 for selling shoes in a particular price range, see col. 5, lines 16-20, and outputting alternative shoes in the price range if the selected shoe is not available, see col. 6, lines 4-36.

3. Claims 43-48, 67 and 68 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Storey, cited herewith. Storey discloses an on-line network for purchasing articles and receiving rewards based upon the price of the purchased articles, see col. 2, lines 28-33 and col. 7, line 22. The awards are available immediately upon purchase of the

merchandise, see col. 2, lines 3-12. Different options for viewing the awards are disclosed in col. 8, lines 29-33 and col. 9, lines 12-16.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 3,6,9 and 51 are rejected under 35 U.S.C. 103(a) as being unpatentable over Joseph. Joseph discloses a network 3 for selling shoes in a particular price range, see col. 5, lines 16-20, and outputting alternative shoes in the price range if the selected shoe is not available, see col. 6, lines 4-36. Joseph does not disclose that the service is a binding service. It would have been obvious to one of ordinary skill in the art to offer any service including a binding service in view of the teaching in col. 3, lines 32-35 in Joseph that the invention is applicable to any appropriate retail store.

Response to Arguments

6. The applicant's remarks have been considered but have not been found persuasive because Joseph does disclose a network 3 including computers 2 and 4, see col. 3, lines 36-44. Further, computer 2 is a sales computer and therefore provides the pay service to purchase an item.
